use the library catalog to find this book

it is by the German film director known recently for documentaries about things like grizzlies, Antarctica, and ancient cave paintings

this book is also the title of his film about a steamship transported over a steep hill in Peru

Cooper Maria

Ahhh! Thank you! So exciting!

This is an odd request, but I'd appreciate it if you could help me out. My girlfriend (@woolsheepy) is coming to visit on Tuesday, and she had a lot of fun doing the scavenger hunt last time she was here. Could you possibly make us an extra tough scavenger hunt to try and solve? If you are busy, then please do not worry about it, but it would mean a lot to me.

Howard Tilton
Sure thing, we'll work on one for ya and get you clues Monday or Tuesday.

Porter Reim
Oh, awesome. Thanks a lot!

Find Richard Campanella's book that is on the first floor. Use this sequence to find the next number 1, 1, 2, 3, 5, 8, 13, 21, _.
Go to the page number of the next number in that sequence.

Good luck with it.
